Dear Parents/Carers,

Increasing Mobile Data Allowance Home Schooling

We understand that completing school work at home can be difficult if you do not have a broadband connection. During the school closure, we can ask your mobile phone provider for extra data to be put on your account to support home schooling. This is at each provider's discretion and only the following providers are offering this support currently:

- Sky Mobile
- Virgin Mobile
- Three
- EE
- Tesco Mobile
- Smarty

Who can get help?

Children and young people who:

- **do not have fixed broadband at home**
- cannot afford additional data for their devices
- are experiencing disruption to their face-to-face education

No request is guaranteed to be successful and each provider will vary in how quickly they process requests. Once a network provider has processed a data increase, they'll send a text message to the account holder.

If you feel that your child falls into the criteria above, please read the following privacy statement and complete the form below.
