

Year Three Newsletter – Term 1

Our main unit for the term: **Village or Town?**

Driving Question: **How should our towns and villages be developed sustainably?**

Focusing on Geography

Literacy

This term in Literacy, we are learning about suspense and adventure stories. When we are learning our story maps, we will be using a range of writing tools, including ellipsis, direct speech and rhetorical questions. We will be working on how to make our writing descriptive and exciting as well as how to provide suspense for the reader.

In addition, we will be learning about sustainability and improving our environmental awareness through the picture book 'Belonging' by Jeannie Baker. We will be looking at the re-greening of urban areas and discussing the impact this has on the environment as well as the people and animals that live there.

At home: You could read your child's favourite adventure story or try a new one! Try to listen to your child read on a regular basis. They will also benefit from hearing you read aloud to them.

Useful vocabulary to know: noun, adjective, verb, adverb.

Useful spelling patterns to know: -ing/-ed endings, tricky high-frequency 'red 'words, homophones such as there, their and they're and to, too and two.

Numeracy

This term we will be focusing on place value including numbers to one thousand and comparing and ordering numbers. We will be consolidating our knowledge of number through times tables and solving number problems, such as adding and subtracting two-digit numbers and answering basic word problems linked to addition and subtraction. Towards the end of the term, we will be learning how to use written methods to cross the tens boundary when adding and subtracting and will be applying this knowledge by solving word problems that require us to use these skills.

At home: Carry on practising your 2,5,10 times tables. See if you can learn them all off by heart! Challenge yourself to begin to learn your 3 times table by counting in 3s!

Useful Websites: <https://www.timestables.co.uk/> (Free games and learning strategies)

Useful Apps: Hit the Button, Maths Rockx, 'Pixl'

Geography

Our unit this term is 'Village or town?' We are learning all about Banbury, starting with identifying where we live using a world map, before looking at more detailed maps of Oxfordshire and our local area. We will continue to develop map reading skills by going on a tour of the school, as well as learning to identify the main points on a compass and reading keys on a map. In addition, we will start to discuss differences between Banbury and our surrounding villages, including how these have changed over time. We are hoping this will be consolidated by a trip to Horley where we will get to observe life in a village and recognise the similarities and differences for ourselves.

At home: What can you find out about Banbury? Can you learn the Banbury Cross nursery rhyme off by heart?

Dinosaurs – Driving Question: How can we, as palaeontologists prove that a variety of different dinosaurs existed?

We will end this term with a unit on dinosaurs focused around how to reunite a lost egg with its grown up. We will be completing some science and history as part of this unit looking at fossils and bones, how we can classify dinosaurs and when dinosaurs roamed the Earth. We will also be writing our own non-chronological reports, looking at the book 'Dinosaurs and all that Rubbish' and getting creative with some dinosaur art work.

We have arranged an exciting opportunity for an educational visit to *Cross Hands Quarry* near Chipping Norton to take part in a rocks and fossils workshop which will help to bring our dinosaurs unit to life. **The cost will be £9** and the trips will be on the following dates: Ash Class – **Monday 18th October 2021** Silver Birch Class – **Tuesday 19th October 2021**. A more detailed letter regarding exact timings and payment instructions will follow in early September.

Spanish

At Dashwood we learn Spanish as a foreign language, as Spanish is the second most spoken language in the world after Mandarin. Children will consolidate what they have already learnt (colours, numbers to 10 and days of the week) and then they will learn numbers to 20 and how to describe themselves in Spanish, focussing on their hair and their eyes.

PE

This term we are going to be developing our ball skills such as throwing and catching, keeping possession of the ball and using space effectively. We will then use these skills to play invasion games such as basketball and bench ball. Our PE lessons will be every **Tuesday** and **Friday** but please ensure your child has their full PE kit in school every day.

Dates

2nd September – Inset day

3rd September – Inset day

6th September – Pupils return to school

18th October – Ash class trip to Cross Hands Quarry

19th October – Silver Birch trip to Cross Hands Quarry

22nd October – Last day of term.

Class text for Term 1:

The Tunnel

There once lived a sister and brother who were not at all alike. Whenever they were together they fought and argued noisily. Sometimes, as night fell, he would creep into her room to frighten her, for he knew that she was afraid of the dark.

One morning their mother grew impatient with their constant bickering. "Out you go together," she sighed, "and try to be nice to each other!" But the boy didn't want his little sister with him.

Reluctantly, they went together to a piece of waste ground. Looking back over her shoulder nervously, the sister whispered, "I don't want to come to this awful place. It scares me,"

"Oh you baby!" snarled her brother. "You're frightened of everything!" and he went off to explore.

"Look!" he said, "a tunnel! Come on, let's see what's at the other end".

"No there might be witches... or goblins... or *anything* down there." But her brother didn't listen.

When he didn't return, the sister was worried. What could she do? She had to follow him into the tunnel. It was pitch-black and slimy - it felt damp as she crawled through.

On reaching the other end, she found herself in a quiet wood. There was no sign of her brother. Finally, she came to a clearing. There was a figure stood as still as stone. A statue. Staring closely, she realised that it was in fact her brother! She threw her arms around the cold, hard form, and wept. Very slowly, the figure began to change colour, becoming softer and warmer. Then, little by little, it began to move. Once again, her brother was there just as she had always known him.

With their hands clasped tightly, they ran back: through the forest, through the wood, into the tunnel, and out again.

Together.
