

If you would like to **make something**, you could...

- Make your own rocket out of recycled materials.
- Draw your own alien.
- Make a flying saucer.
- Make a model of the planets.

If you are feeling **musical** you could you could...

- Try to make some space sounds using different instruments. You could make your own instrument using dried pasta and lentils.

If you are feeling **scientific** you could...

- Mix some paint with some washing up liquid, blow some bubbles with a straw, put some paper on the top and see the patterns it makes.
- Talk about different shapes of the moon.

If you are interested in **history**, you could...

- Find out about a famous astronaut. Try to find some facts. You could draw a picture of them.
- Find some pictures of some old space rockets and compare them to what they look like today.

Project based learning – Heroes

Please bring in by Friday 21st January 2022

SPACE (Term 3 Reception Topic)

Choose one of these options (or an idea you have yourself)

If you are interested in **literacy**, you could...

- Write a list of what you would take to the moon.
- Read some space stories, including, What Ever next!
- Draw a rocket or the planets and label them.

If you are interested in **computing**, you could...

- Take pictures of different shapes you see in the environment- you could post these on tapestry!

If you are interested in **maths**, you could...

- Create a picture of a rocket/alien using shapes and try to name them.
- Practise counting backwards from 10/20 for the lift off sequence of a rocket.
