

Dashwood Banbury Academy

an Aspirations Academy

Growing together; succeeding together

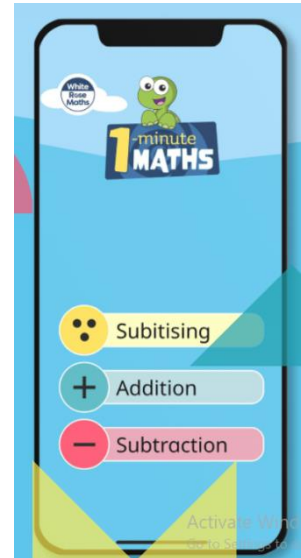

We use White Rose as a maths scheme in school to support our maths teaching and the pupils love it.

An amazing **new free maths app** has been launched this week called **White Rose 1 minute maths**. This links to work the pupils do in class.

Its aim is to support pupils with their fluency with quick 1 minute sessions on subitising, addition and subtraction. There are lots of different games for the children to play, so they can start anywhere.

As a school we are very much focussing on improving fluency and quick recall in maths as it helps children move on to solving deeper problems.

We would recommend downloading the free app (it is available on Google Play and the App Store) and encouraging your children to play for 1 or 2 minutes a few times a week.

10 reasons for using 1-Minute Maths:

1. Excellent number practice with no distractions.
2. Enjoyable tasks children at all ages want to complete.
3. Instils basic number concepts.
4. A clear process that children pick up immediately
5. No login or internet access needed. Download and play!
6. A motivator – children enjoy trying to beat their last score!
7. Helpful hints give support when needed.
8. Brilliant for building confidence and fluency.
9. Random question generator instils concepts, not answers.
10. Completely FREE to download!
