Dear Parents / Guardians

We are very excited to be trialling MyMaths in Year 5 and 6 for maths homework. MyMaths is an interactive online teaching and homework system that aims to build children's engagement and consolidate their maths knowledge.

It is a very intuitive system to use and teachers will set specific tasks for the children to complete. When the children sign in they will be taken to those tasks. Each homework will consist of 2 pages. When the children finish each page it will be marked giving them instant feedback. They can go back as many times as they like and their best score will be recorded.

The children will be given some time to explore the system in school so they are familiar with how to use it.

We hope they enjoy using MyMaths for their homework.

Yours Sincerely

S. Gordon-weeks
