

If you would like to make something, you could...

- Design a water bottle that is not made out of plastic.
- Design something to help us recycle in school.

If you are feeling *musical* you could...

- Create a musical instrument out of recycled materials.

If you are feeling *scientific* you could...

- Find out about how plastic affects the environment.
- Find out how different products are recycled.
- Find out about how plastic can affect animals.

If you are interested in PE, you could...

- Research the rules of handball - produce an information text about the sport.
- Research famous cricket events and or players - create a fact file about these.

**Project based learning - Spirit of adventure**

Why should humans work harder to protect habitats and the environment?

**Challenge yourself to see how many of these you can complete. We look forward to seeing your learning next term!**

**This project is due in on Friday 05<sup>th</sup> May**

If you are interested in *literacy*, you could...

- Create a poster promoting recycling.
- Read some non-fiction books about animals and write a book report.

If you are interested in *Computing*, you could...

- Use the free scratch app to create a recycling story.
- Make a stop motion video all about recycling.

If you are interested in *maths*, you could...

- Calculate how much it would cost if you used a new plastic bottle for your drink each day at school.
- Calculate how much it would cost if you used a new plastic bag for your lunch each day.
