

Gardening - planting boxes and sunflowers

We have started growing our sunflower seeds in the classrooms!

Each class is growing their own seeds and when the seedlings are strong enough, we will plant them outside in our new planting boxes.

Classes will be encouraged to take care of their plants and Angie, from Keter (who kindly donated all the planting boxes), will judge which class grew the most successful sunflowers.

We look forward to our gardening/Forest School club next term and hope to grow more exciting things in our new planting boxes and pots around the school!

Gardening Club

Gardening Club have had a fantastic start to Term 5 starting to sort the new planters ready for the planting of fruit, vegetables, herbs and shrubs! Take a look as you walk through our school and see what is growing!

We have repotted the class sunflowers because they were starting to grow so well and needed bigger pots! The gardening club attendees were so helpful and managed to transplant so many plants with real care!

The Gardening Club pupils have been getting stuck in to make our Dashwood outside space inviting and haven for all of our pupils and mini-beasts alike!

A big thank you to our parent/carer helpers Andrea and Jude who have been a very welcome support in making our garden start to look wonderful!
